PRIOR TO CLOSING: IMPORTANT CUSTOMER CHECKLIST

To ensure your closing can be completed as scheduled, please follow these important instructions prior to our crew arriving:

1. ENSURE your pool has been vacuumed prior to your closing. If your pool is not clean you will be charged extra for us to vacuum (\$85 per hour).
2. PLEASE make sure that if you have a drop-in step in your pool that it (and the sand bags that hold it in place) has been removed BEFORE your closing. Our crews are unable to go into your (probably frigid) pool to remove such items.
3. PLEASE bring a sample of your pool water in ONE WEEK before your scheduled closing date. This will allow adequate time to make any necessary chemical changes to your water. REMEMBER, water left over the winter months that is not balanced can cause liner fading, wrinkles and / or staining problems.
4. Your salt cell MUST be stored indoors.
